

**Berks County
Safe Homes
Parent Network:
If you are the
parent of a school aged
student...
take the pledge!**

Safe Homes is a network to help parents ensure the homes their children visit are safe and healthy places where drugs and alcohol will not be provided to youth. **Safe Homes** parents enjoy the mutual support of other like-minded parents by agreeing to follow the **Safe Homes** pledge.

A directory of **Safe Homes** members within each participating school or organization is compiled. These homes enjoy the understanding that they may contact anyone in their group's directory about upcoming events that their child/children might be attending.

If you would like information on the many Council on Chemical Abuse prevention programs available in Berks County, you may request information at 610-376-8669 or via e-mail at drugfree@councilonchemicalabuse.org.
